

# Frisco Community Bible Church

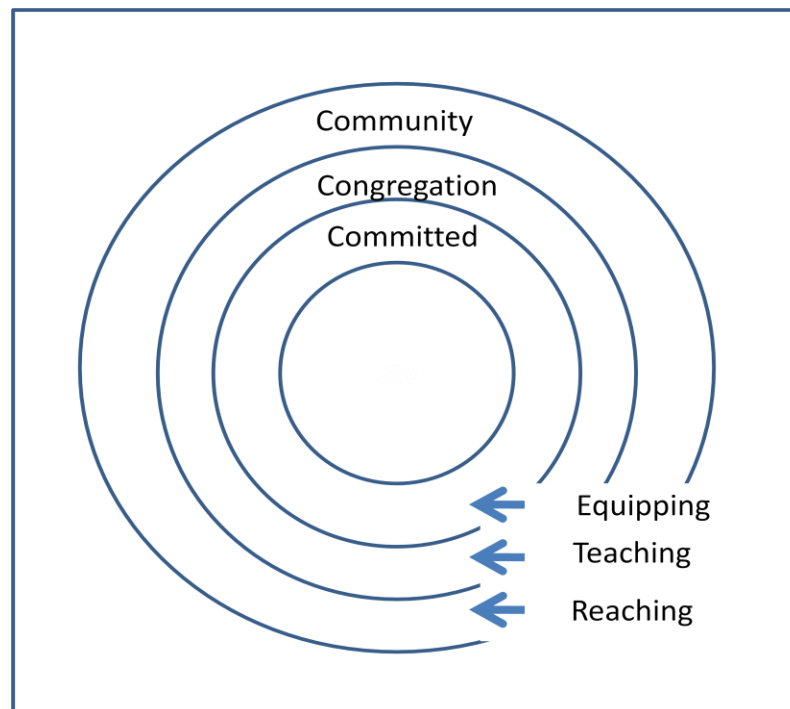

## Children's Ministries Vision and Mission

---

**Vision** Our vision is to glorify God by guiding children to start a life-long, joyous relationship with Christ and become His disciples.

**Mission** Our mission is to partner with families to provide age-appropriate opportunities for reaching, teaching, and equipping children to love God and serve Christ for their entire lives.

More specifically, we will seek to reach certain target groups as follows:

**Community** (Reaching) Impact children and their families through the message of gospel and God's unconditional love flowing through us so that children will begin a personal relationship with Jesus Christ (Matt 18:11-14)

**Congregation** (Teaching) Cultivate a passion for the Scriptures so that children will understand its principles and apply its truth for their physical, intellectual, social and spiritual growth (2 Tim. 3:16-17; Luke 2:52)

**Committed** (Equipping) Equip children to share their faith, to serve others, and to discover God's plan for their lives (Matt 28:19-20, 1 Tim 4:12)

**Ministry  
Values**

Frisco Community Bible Church's Children Ministry will be characterized by:

**Integrate Strategy** – Children leaders are leading the children with the same end in mind. We will seek to discover, train, and encourage children coworkers to be Christian role models and exercise their spiritual gifts in fruitful service to children and families

**Family Partnership** – Children leaders and parents form a partnership in teaching and modeling the biblical truths to the children. We will seek to engage parents to take initiative in the spiritual formation of their own children. We will seek to provide practical resources to help parents to reinforce the biblical truths at home.

**Secure and Accountable Environment** – Procedures to guard the health, welfare, and spiritual development of each child will take precedence over all other considerations or conveniences. Accountability to God and our mission will be expected of all personnel and programs.

**Relational** – The value of caring and authentic community should be championed at every age level. We will seek to connect every child to a caring leader and consistent group of peers in shepherding them to be disciples of Christ.

**Child-centered** – All programs, instruction, and activities will be developed to meet the spiritual needs of children. We'll present the truth from the Bible with excellence, creativity, variety, relevance and fun; allowing children to experience God in a personal manner appropriate for their age.

**Leverage Influence** – Consistent opportunities are provided for children to experience personal ministry. We will challenge children to use their gifts to plug into ministries inside the church and to serve the community outside the church.
